DIE STYLISCHE SCHATTENKÖNIGIN

Sommer? Er lässt dich nicht kalt, dafür ist es draußen zu warm. Aber Sonne pur ist nicht dein Ding. Dafür aber kannst du dich umso mehr für die neuesten Sommer-trends erwärmen. Deinem Kleiderschrank gönnst du gerne ein Make-over mit den It-Pieces der Saison. Und auch in Sachen Beauty bist du stilsicher: Für den perfekten Sommerteint brauchst du keine UV-Strahlung, denn du weißt, welche Farben und Styles dir stehen. Und so wirst du zur unwiderstehlichen „Schattenkönigin“ dieses Sommers.

- DER FRÜHLINGSTYP

Im Frühling erwacht die Natur in frischen, hellen und leuchtenden Farben zu neuem Leben. Genau diese Farben stehen dir besonders gut: das Gelbgrün von frischen Knospen sowie das Rot, Apricot und Rosa der zarten Frühlingsblumen. Auch Türkis, Creme und goldige Brauntöne lassen deinen Teint strahlen. Zu vermeiden sind dunkle, gedeckte Töne.
